

Behind the brand

Created to enhance the power of nature with innovative technology, Spicensea™ harmoniously unites ancient wisdom with cosmetic patents, enabling you to radiate with beauty from the inside out. Our professional integrity drives us to use the highest quality ingredients and keep the natural resources as close to their original form as possible.

Historically used for medicinal and healing purposes, plants can naturally treat a widerange of ailments and skin conditions. Using state of the art labs, our botanical specialists developed an extraction system that enhances the active properties of traditional plants without the intervention of chemicals. All plant essences in Spicensea™ products extracted through an extensive steeping process that keeps the ingredients clean and preserves the integrity of the plants.

Based on pure ingredients and fortified with Eco-Certified and natural patents, Spicensea™ utilizes a wide range of plants, oils and fruit extracts to create the most natural solution to modern skin care.

Essential Ingredients

Each collection in Spicensea™ based on various plants and extracts. From turmeric and argan oil to basil and shea butter, our products are rich in all natural plant essences to pamper your skin with the best available ingredients.

This rich base of flushing ingredients synergizes with natural patents to create powerful, pure skin care products that effectively treat various skin conditions. These formulas maintain the potency of pure, botanical actives and later incorporated into the Spicensea™ product line.
